Vending

Grow Same Location Sales 10 to 15 Percent.

Real Innovation

- The currenza 30 note recycler was the 1st single note recycler specifically designed for the vending industry
- Now, the currenza 60 note recycler provides the highest capacity single note recycler to the vending industry

Increases Profitability

- Eliminate the need for bill changers
- Enables high value transaction

Grows Sales

- Reduction in coin depletion drives higher machine uptime resulting in increased revenue
- Enables impulse sales by accepting larger bill denominations
- Fast transaction speeds (2.5 seconds to stack) improves throughput

Improves Operational Efficiencies

- Requires less coins (float) in the coin changer
- Recycling lowers operating costs by reducing service calls for coin replenishment
- Reduces cost of overall coin handling
- Easy diagnostics via LED indicator helps to quickly identify areas to address

Improves Consumer Experience

- High acceptance rate (96% or better) reduces consumer frustration
- “Pulsing” Blue LED bezel lights attracts consumers

World Class Reliability

- Beltless transport system lowers maintenance costs
- Patented recognition system designed for optimal acceptance and security
- Additional multi-sensor anti stringing protection

Features

- Industry leading 60 note capacity single denomination recycling system
- BlueChip™ Sim Card for quick configuration changes & firmware updates
- Dynamic bill counter visible through 2 digit LED display
- Accepts and returns \$1-\$20
- Coupon capable
- Advanced auto-calibrating optical, inductive and dielectric sensors optimize validation rates
- Anti-stringing protection
- Four-way bill insertion
- Complete transport cycle at only 2.5 seconds
- Durable, metal chassis
- Choice of bezels: Standard coin resistant, metal, up or down stacker and Card reader
- Beltless transport system lowers maintenance costs
- Quick and easy diagnostics via LED indicator

Pulsing Blue LED lights attract consumers

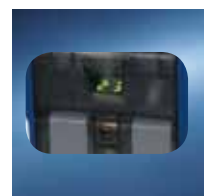

Coupon capability to reward consumers

BlueChip™ for convenient updates

30 and 60-note capacity Recycler Cassette

2 Digit display for Route Driver

currenza® Recycler Specifications	
Validation Rate	96% or higher
Bill Insertion	Four-way
Escrow	One bill
Sensors	Patented optical, inductive, dielectric and cross-channel (anti-stringing)
Recycling Cassette	30 bills or 60 bills (denomination configurable)
Protocol Supported	MDB
Program Memory	BlueChip™ SIM Card
Operating Voltage	22 to 40 VDC
Operating Temperature	-4° F to 140° F / -18° C to 60° C
Transport Cycle	2.5 seconds
Weight	7.28 lbs
Cassette Sizes	300 or 400 or 600 capacity
Dimensions	97 x 132 x 132 mm (closed); 97 x 217 x 191 mm (open)
